P) Predator Rules

Pike Fishing Season 1st October to 31st March inclusive.

Pike are one of our most valuable resources and essential for a balanced fishery. This policy has been produced to ensure that the quality of pike fishing is maintained and we expect our members to observe and implement this.

We have sourced material from the web and consolidated this into an easy-to-read guide. It will be revised over time and with experience. We recognise that there is a wide variety of anglers fishing for pike, both novice and experienced and so we have tried to produce a balanced policy that all find able to use.

- P1** All pike are to be returned alive and unharmed to the water.
- P2** Use strong tackle. **A minimum of 15lb monofilament or 30lb braided line.** Remember pike fight harder and take longer to recover when water temperatures are above 15C so gear up accordingly.
- P3** Use a **large knotless landing net with arms of at least 42" or a round frame of at least 30".** Rubber net materials preferred for Pike
- P4** **Use an unhooking mat of at least 1 metre long.**
- P5** Use **barbless or semi-barbed hooks.**
- P6** Make sure you are suitably equipped. Have in your possession **10"-12" artery forceps, long-nosed pliers** and a **pair of side cutters** to crop hooks that are difficult to extract. **NO GAFFS, BOGA GRIPS or PIKE GAGS TO BE USED**
- P7** When bait fishing, **strike quickly when a run develops.** If you find you've deep-hooked a fish, do not cut the trace. Unclip it and seek help.
- P8** **No live baits over 6"** to be used and no live baiting at all in competitions.
- P9** **Under no circumstances retain pike in keep-nets or carp sacks.** Retention slings can be used while you get ready to photograph the fish. **Maximum retention time is 15 minutes.** Pike should be weighed and released as quickly as possible
- P10** If retaining fish for a short while, use deep water, out of direct sunlight, and point the fish toward the waves to encourage oxygen flow.
- P11** Once a pike has been weighed, safely carry it back to the water in the net or sling for careful release. Ensure the pike can support itself before releasing it. Stay with the fish for as long as it takes to recover.

There is the opportunity to have pike teach-ins for those that have not experienced unhooking pike.

If you would like to benefit from this, please email the club.

And remember, mistakes do happen and you won't be vilified if you do make a mistake, but do seek support so you don't compound an error.

D) COMPETITION RULES

- D1** The draw shall take place and fishing shall commence at the Competition Secretary's discretion.
- D2** The start and finish of all competitions shall be by whistle.
- D3** In general competitions all species count except pike. In special competitions only specified species count.
- D4** No competitor shall move more than 12m from his peg without first removing his tackle from the water and unbaiting his hook. A competitor's swim shall be defined as (see rule **C15**).
- D5** In the event of competitors being level on total points, winner decided by gross weight.
- D6** Fish to be hooked and landed without assistance from any other person, except persons who have obtained prior permission of the Competition Secretary.
- D7** All fish hooked on or before the final whistle may be played, landed, and weighed in within Fifteen minutes of the whistle.
- D8** The weigh-in will be at the competitor's pegs, by the Competition Secretary or their appointee.
- D9** No dead fish to be weighed in. No fish to be weighed in during competitions, unless expressly approved by the Competition Secretary e.g. Specimen fish not to be kept in keep net.
- D10** In any dispute the Competition Secretary's decision is final and binding.
- D11** Any Member intending to weigh in fish for a competition must remove all rods on final whistle and must not recommence fishing until after weighing in.

BYLAWS (shown in red), in operation but to be approved.

*These are rules introduced by the committee, that replace existing rules or are new rules. They come into operation **once emailed to members through Clubmate and posted on HACs social media sites**. They remain in operation until the next AGM or SGM at which point they are to be approved or rejected by the membership. Bylaws may not be introduced to sections A) CONSTITUTIONAL RULES and B) COMMITTEE RULES of the society rules.*
